كۆمپانياى المعدات المخزنيه بۆ بازرگانى ئامێرى بەرزكردنەومو كۆگاكان شركة المعدات المخزنية لتجارة المكائن ومعدات الرفـع والمخـازن Storage Equipments Company for trading machinery, lifting equipment and warehouses

F Series - F1

Electric Pallet Truck 1.5T

- A durable truck for industrial applications
- Platform-based design to maximise competitive advantage in the market
- Cost-saving operations throughout the distribution cycle

F1 – A durable truck for industrial applications

F Series shares the same highly- integrated tiller design which offers easy management and efficient maintenance for daily usage. It also makes cost-effective distribution process possible by 3 units per box as standard.

F1 inherits the practical features of EPT20-15ET: integrated charger and 24V/65Ah AGM battery for industrial needs and market-proven drive unit for endurance and stability.

F1 is an optimized solution for those who undertake heavy-duties in rugged scenarios.

Why F Series?

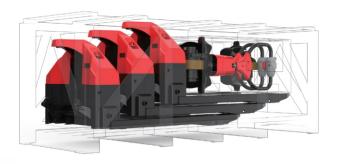

Platform-based design to maximise competitive advantage in the market

F series features the platform F, which simplifies the configuration of the truck and allows buyers to choose from 4 different chassis by application. The product design provides value and creates a flexible product strategy by introducing new equipment that meets various market requirements.

 Cost-saving operations throughout the distribution cycle

3 units per box as standard wholesale supply reduces overall spending through the entire distribution process. F1 accommodates **132 units** in a 40' shipping container compared to 64 units of EPT20-15ET, that can reach as high as **50%** of ocean freight charges reduction.
